

Weilbach Pay As You Sail (PAYS) Reduce ENC costs without sacrificing flexibility

Challenges with traditional ENC licensing

- Charts are often purchased but never used
- Last-minute voyage changes lead to unnecessary costs
- Contingency charts increase spending before they're needed
- Managing individual chart licences across a fleet takes valuable time

PAYS removes the complexity and the unnecessary cost.

How PAYS reduces ENC costs:

Pay only for what you use – charges are based on the ENCs your vessel actually sails through

Predictable quarterly pricing – fixed subscription costs make budgeting straightforward

Complete world ENC folio from day one – no shopping lists, no missing charts, no delays

Simple implementation – start using PAYS with only the vessel name, IMO number and MMSI

Centralized fleet management – monitor vessel spending, reporting and chart holdings from one platform

Customized ENC updates – to minimize bandwidth usage

| No hardware installation | Pay only for charts you sail | Full world ENC portfolio from the start | AIS tracking |
